INTRODUCTORY NOTE

The MONTHLY LIST OF RUSSIAN ACCESSIONS is a record of the publications in the Russian language received in and outside the Soviet Union that are currently received by the Library of Congress and a group of cooperating libraries. Whenever possible, publications printed in other languages spoken in the Soviet Union are also included. However, publications in the languages of the U.S.S.R. and in countries of Eastern Europe are not included, since they are covered by the *Current Soviet and East European Publications*.

The MONTHLY LIST consists of three parts. Part A lists monographic literature, but no serials published earlier than 1918 are included. To facilitate the use of this LIST by readers who are not thoroughly familiar with the Russian language, the title in the original language in Part A is preceded by its English translation in brackets.

Part B lists Russian periodicals with their tables of contents translated into English. However, serials published earlier than 1917 are not included.

Part C is a subject guide to both the monographic and periodical articles listed in Parts A and B. Monographic titles are listed under the appropriate subject headings first, followed by the periodical article titles. For the convenience of readers desiring to examine only monographic or periodical articles, the monographic titles are printed on slightly heavier type than the periodical articles. The titles of monographic titles are given both in the original language and in English translation, whereas titles of periodical articles are given in English translation only. In citing periodical articles, the following abbreviations are used for the months of the year:

Ja	January	My	May	S	September
F	February	Je	June	O	October
Mr	March	Jl	July	N	November
Ap	April	Ag	August	D	December

Example title: [Treatment of the human glaucomas] L.S. Levina, G.M. Neishtadt, Vestnik, 30 (1) 5-8 Ja 51

Explanation: An explanation of the above example, written by L. S. Levina and G. M. Neishtadt, will be found in the September-October 1951 issue of *Vestnik of* [illegible], vol. 30, no. 5, pages 5-8.

A list of periodicals scanned for the current issue, with abbreviations used, is given at the beginning of Part B. The number and letter in parentheses following each periodical title indicate the issue in which the table of contents may be found in Part B. Cumulative lists of periodicals scanned for Parts A and B appear as in numbers 6 and 12 of that volume. These lists are arranged by the alphabetic symbols of American libraries other than the Library of Congress, [illegible] follow each title.

Entries in Part A are arranged under 17 subject classifications, [illegible] the appearance of the head classification symbols, and subject entries under several subjects. All [illegible] the Library of Congress symbols except that [illegible] are used, all locations are supplemental to the collections of the Library of Congress. Symbols * represent holdings information indicating where items are available in these libraries. Curves ( ) around a supplemental symbol indicate that at the time of receipt the material was available in another library but not [illegible] Congress.

A [illegible] author, subject, and periodical location index to the first three volumes of the MONTHLY LIST is available as a separate publication. Beginning with Volume 5, an author [illegible] and a periodical location index for the entire volume are furnished as supplements to the first issue of each following volume.

Readers may [illegible] of listed items that are in the collections of the Library of Congress may be placed with the Photoduplication Service, Library of Congress, Washington 25, D. C.

The MONTHLY LIST OF RUSSIAN ACCESSIONS is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Issues of single copies current; subscription price, $9.00 a year domestic, $11.00 a year foreign. Issue of Cumulative Index to Volumes 1-3, $1.50.
